## A NEW WAY OF ENTERTAINMENT

In traditional fan economy, fans can support the IPs (celebrities) by tipping them. This **centralized system** controls the process of IP creation where the community pays for IPs **without getting revenues back**.

In Overeality, the fans are the investors, idea creators, and decision-makers. We create a **decentralized economy** where token-holders can **make decisions** on the IP creation process for the metaverse with **dividends rewarded** to the stakeholders.

## TOKEN HOLDER PRIVILEGES

### REWARD YOUR EFFORT

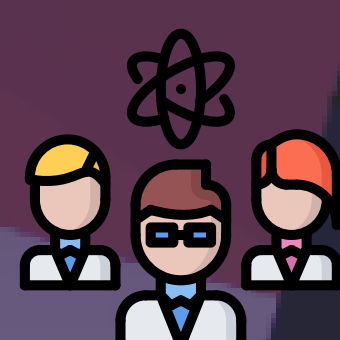

**Content creators** and **Initial voters** are rewarded with **airdrops** after initial NFT sales. The active community **contributors** are rewarded with initial sales revenue.
